It is my pleasure to introduce you to our wonderful island paradise in the Caribbean. Replenish your body, relax your mind and rejuvenate your spirit in ANGUILLA. Spend a quiet day basking in the sun on one of our amazing thirty-three beaches. Take in a few art galleries, make a fascinating excursion to our undersea world, then dance to world or island beats under the stars.

Enjoy a sunrise or sunset, stroll on powder soft white sand and experience our cultural history through Carnival, festivals and unique boat races. Try your hand at horseback riding, day and night tennis, a sail, or golf. And that's just a sampling of what we have to offer.

Anguilla is an island retreat for couples, families and singles alike with quality accommodations and world renowned dining in all price ranges. But most of all, in Anguilla you will find warm, welcoming people who value visitors just as much as our visitors value the time they spend with us.

I trust you will find this new 2008 Anguilla Travel Planner a good source of information to guide you in making your vacation a memorable and exciting experience. I hope you will come back to visit us again and again.

Warmest regards.

Art

Nature's quiet, overwhelming gifts of exceptional light and colours have captured the fancy of a growing number of local and international artists who claim Anguilla as their private haven of inspiration.

Canvasses come alive under the artist's brush transmitting the Island's peaceful landscape and extraordinary message of natural beauty to admiring visitors and a constantly growing audience of collectors.

Even Anguilla's postage stamps are charming expressions of simple daily life as well as cherished reminders of the island's rich history.

Marché Chromatica 24, (2003) 12" x 16" watercolour. Lynne Bernbaum (www.lynnebernbaum.com) displays an incomparable touch with unique and bold colours in compositions of great depth. An Anguilla resident for 8 years, the American watercolourist approached a new medium, oil, in 1999 along with new subjects... umbrellas, dominoes and lovers. She has successfully exhibited internationally in the USA, Spain, France and recently opened a new Anguilla studio in George Hill Landing.

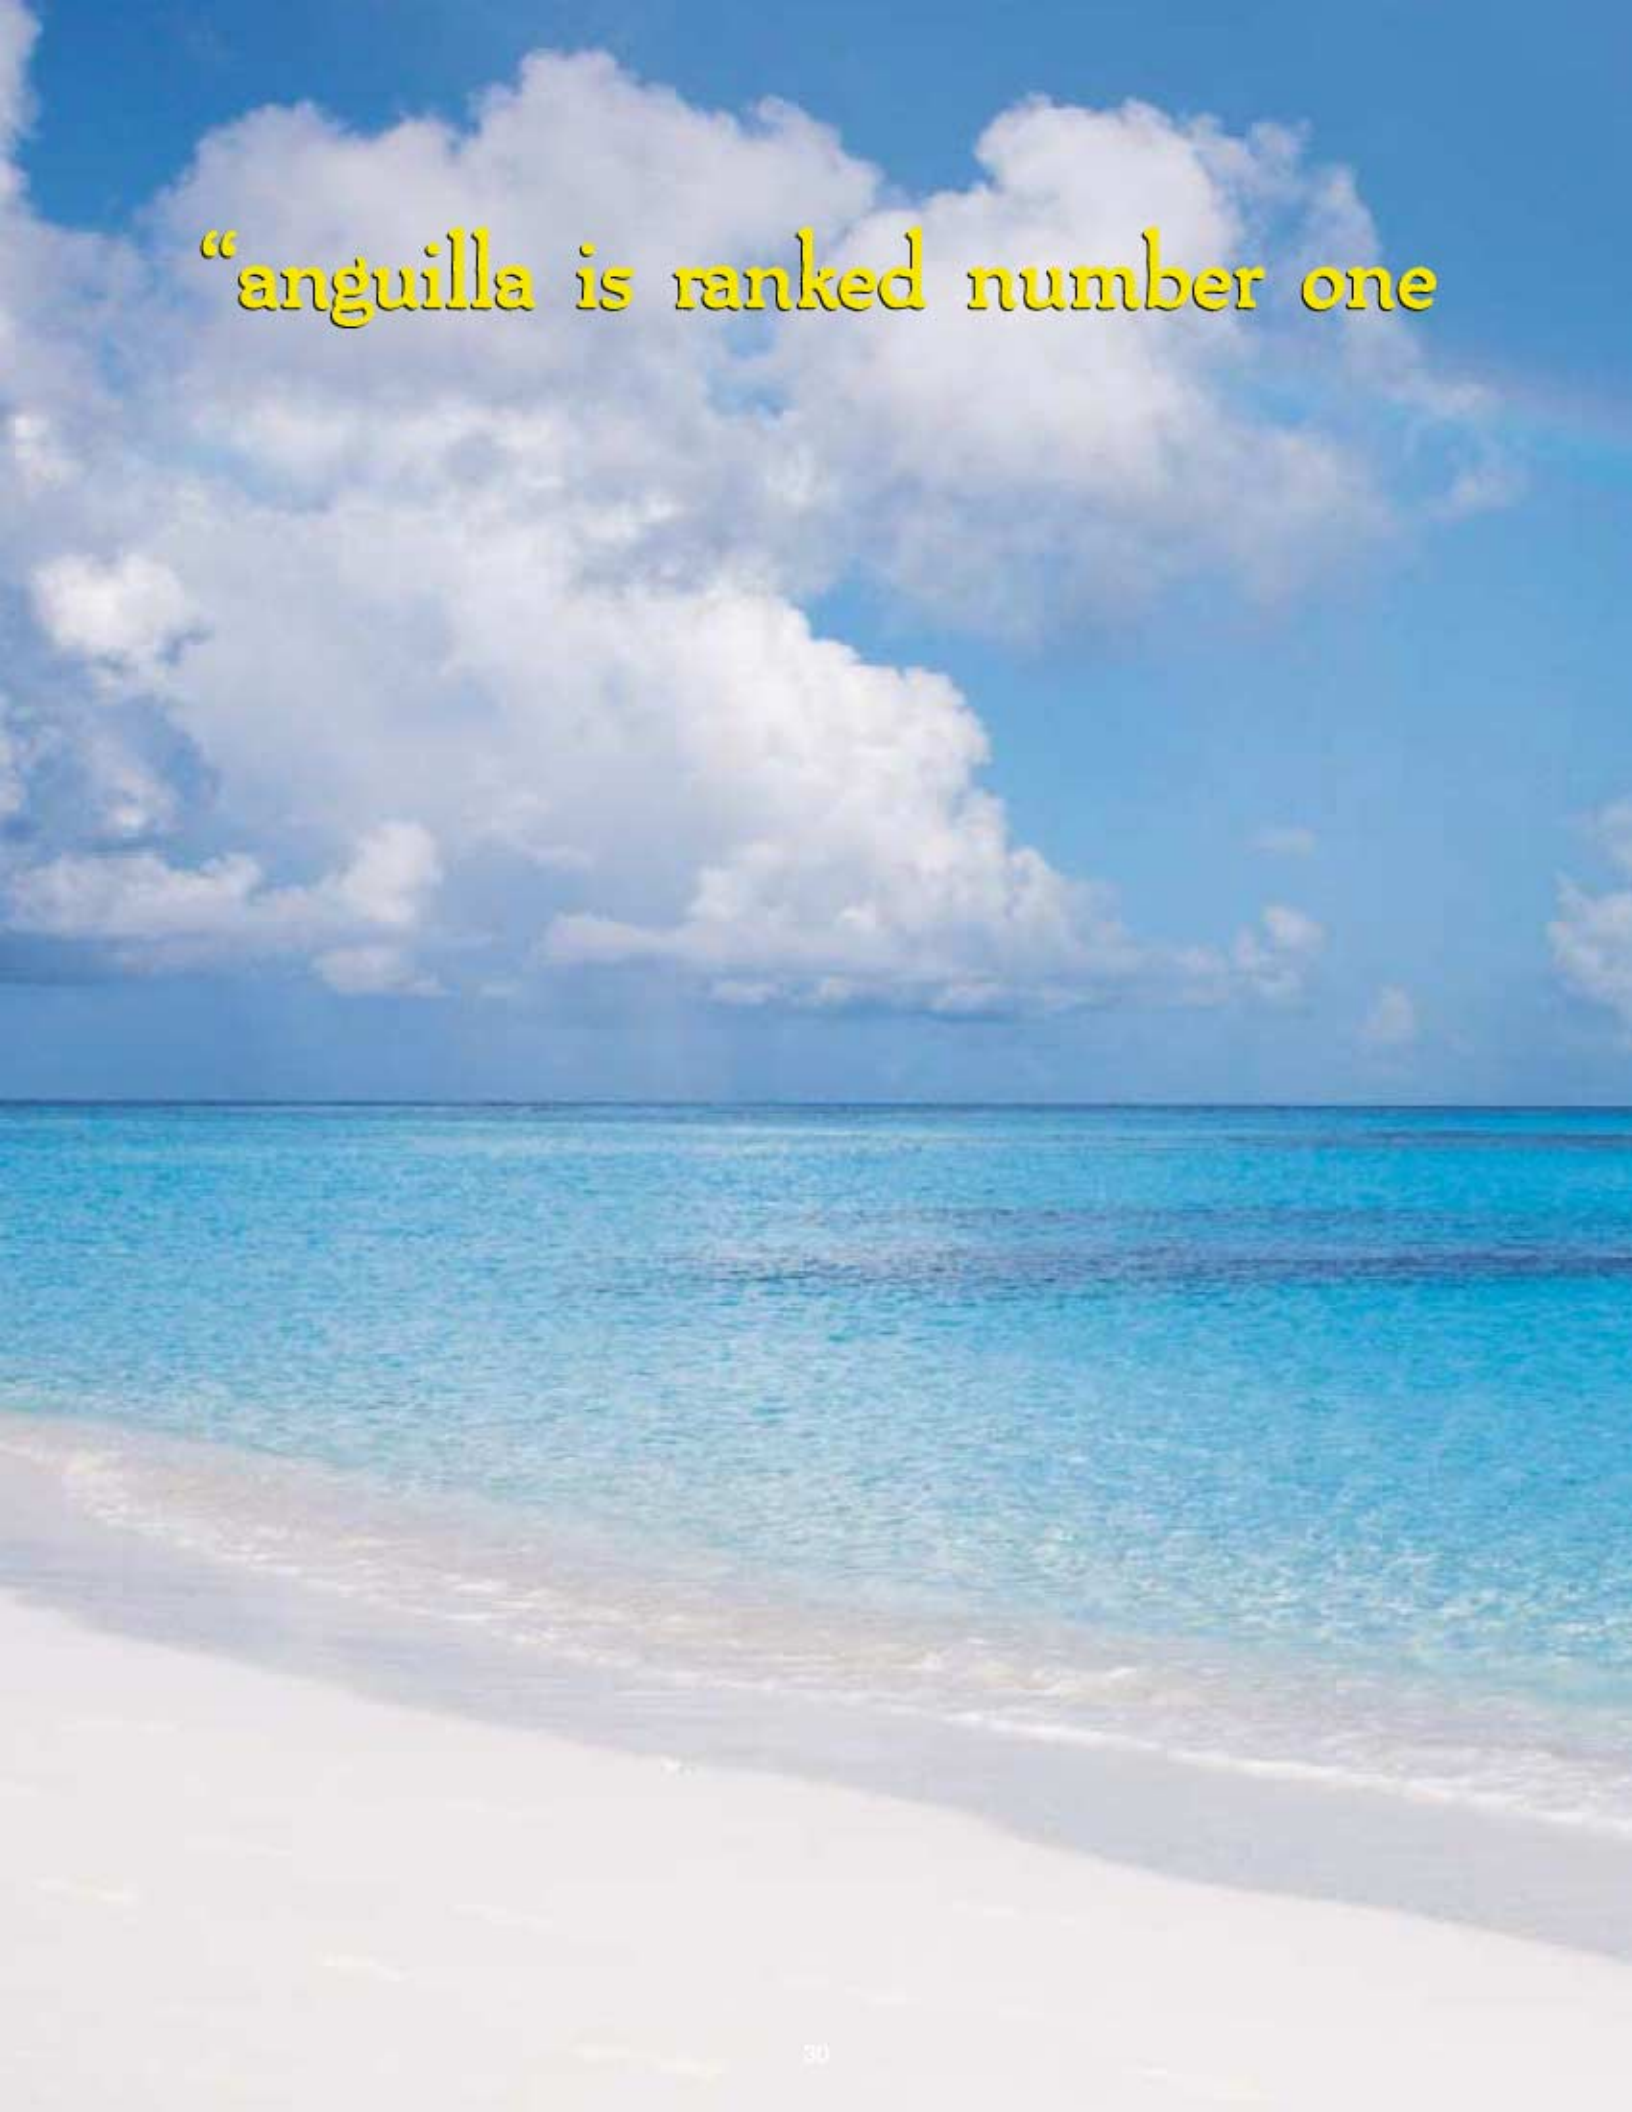

King Of The Roost, (2006) 20" x 24" acrylic on canvas by Anguillian-born Louise Brooks, an artist whose work showcases many of the alluring and natural aspects of her island home. The calm and serene beauty of the land and sea, the colours of the flora and fauna and the charm of the traditional houses and boats are all scenes captured by the ready brush of this teacher of Visual Arts at Anguilla's Albena Lake Hodge Comprehensive School. Louise recently opened ALAK art Gallery on Shoal Bay East Road. (brooks571998@yahoo.com)

Love Will Always Be There, (2005) 10" x 13" acrylic by French-born Lydia Semeria, a self-taught artist residing in Anguilla for 20 years. Inspired by the communication between man and nature, her whimsical oils and lovely watercolours exchange emotion through a powerful use of colour. Her work is exclusively displayed at her studio in Sandy Ground. Fine art restoration, hand painted furniture and decoration are her other specialties. (lydiasmeria@operamail.com).

Mind, Body & Spirit...

The Venus Spa at CuisinArt Resort will triple in size with a 19,000 square-foot addition, scheduled to debut Spring 2008. Plans include areas for hydrotherapy and an exclusively designed Thalasso pool, where guests soak in heated nutrient and mineral-rich salt water, favoured for its healing properties. The Spa blends traditional European methods with modern signature treatments using natural products to pamper body and mind. Here guests enjoy customized facials, mineral baths, aroma therapies, and anti-aging treatments. It is the purest form of pleasure, with an extensive menu of customized massage and body treatments, and the resort's exclusive Body Escapes. Highly trained therapists work with you to address your every need. (www.cuisinartresort.com) email: spa@cuisinart.ai

Pre-arrival special orders and on-the-spot complements to the island's expanding alternative healing services, Simply Natural by Yinka, carries a wide variety of name brand herbal and natural organic products to satisfy particular dietary needs and health food enthusiasts. email: phyllisfb@anguillanet.com

Malliouhana Spa, a 15,000 square foot oceanfront full service spa, is a euphoric environment ideal for relaxation and emotional harmony. This peaceful sanctuary offers over 65 contemporary and traditional treatments including massage therapies, body polishes, bathing rituals, facials, salon services and half or full day spa therapies all administered by high caliber therapists from around the world. The spa features 5 treatment rooms, 1 outdoor treatment area, 3 private spa suites, an indoor/outdoor relaxation area,

separate male and female steam/sauna rooms and a fully supervised fitness centre with personal trainer. (www.malliouhana.com) email: reservations@malliouhana.com

Far from the pressures of the modern world, the island's spas, health and wellness professional's aim is to relax, rebalance, replenish and revitalize body and mind transporting you to Paradise... while in Paradise.

The origins of **Cap Juluca Spa Services** are rooted in tradition. Many indigenous cultures believe that the heart of healing begins at home. In keeping with this ancient wisdom, we are honored to bring our spa and Wellness treatments to our guests in the luxury and intimacy of their own private surroundings. Should you prefer, there are also five treatment rooms. Specially trained therapists help you find peace and balance through special uplifting treatments to transport body, mind and soul into the moment. Guests can choose from a collection of massages, body polishes and wraps, facials and an incomparable selection of spa packages. (www.capjuluca.com) email: spa@capjuluca.ai

Deep Tissue Massage is the therapy of choice to release muscle tension and relieve pain. Jill Walker (Canadian RMT for 15 years), of **Taino Wellness Centre** in South Hill, applies techniques to elicit healing responses and release trigger points. She also successfully uses acupuncture to treat conditions such as back and neck injuries, muscle spasm and tendonitis.

Thermal Palms, (firm, pouches similar to Hot Stones that stay warm for the entire session) is an exclusive treatment with fluid massage movements. All-organic products are being introduced to the entire service line over the coming year. A full range of facials and body treatments complement her therapeutic skills. The Mobile Spa services are also very popular. (www.tainowellness.com) email: tainowellness@yahoo.ca

With the fundamental potential of transforming restrictive patterns, the profound relaxation and healing process of **Cranio-Sacral Therapy** is practiced by Swiss-trained Viviane Masshardt at Sirena Resort. A light touch of hands establishes diagnosis treatment. Subtle patterns of craniosacral motion within the body are identified and interaction of systems are brought together thru a gentle non-invasive approach which stimulates and enhances the body's self-healing responses. email: vivianemasshardt@hotmail.com
